Williston Basin states that these tariff sheets reflect the Company's proposal to incorporate the recovery of electric power purchased for use in the operation of its electric compressor stations into the current fuel reimbursement adjustment provision. By doing so, Williston Basin's electric

power costs will be tracked in a manner very similar to the Company's current method for tracking gas fuel requirements as outlined in Section 38 of its FERC Gas Tariff, Second Revised Volume No. 1. Williston Basin further states that although such electric costs will be tracked independently of the gas costs, for billing purposes the gas and electric compressor rates or in-kind percentages will be added together in order to reflect only one applicable fuel rate or percentage rate for each rate schedule.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Sections 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed in accordance with Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

Young Gas Storage Company, Ltd.; Notice of Filing

January 6, 1997.

Take notice that on December 31, 1996, Young Gas Storage Company, Ltd. (Young) tendered for filing as part of its FERC Gas Tariff, Original Volume No. 1, the following tariff sheet, to become effective February 1, 1997:

Second Revised Sheet No. 4

Third Revised Sheet No. 47

Young states it is adjusting the rates for Rate Schedules FS-1 and IS-1 resulting from the currently effective Average Thermal Content of Gas in Storage (ATC) posted on Young's electronic bulletin board on December 27, 1996 pursuant to Section 1.2 of the General Terms and Conditions of this tariff. Further, Young states the combination of the revised ATC, the revised entitlements and the revised storage rates will not change the current customer storage reservation payments under the instant proposal.

Young states that copies of this filing have been served on Young's affected jurisdictional customers and public bodies.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street N.E., Washington D.C. 20426, in accordance with Sections 385.211 and 385.214 of the Commission's Rules of Practice and Procedure (18 CFR Section 385.214 and 385.211). All such petitions or protests must be filed in accordance with Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the
